PEOPLE & ORGANIZATIONAL DEVELOPMENT

At S3, we believe People and Organizational Development solutions are designed to enable an organization to respond and adapt to changing market conditions and to set a new agenda. Organizational Development (OD) is frequently linked to organization structure, which can act either as an enabling or restrictive mechanism for change. S3 specializes in building, enhancing and integrating your OD components.

If your organization struggles with the following questions, S3 has your solutions:

- How can we help our leaders to successfully transition through each new level as they advance through our organization?
- Do we have the right people in place to drive business results?
- What would we do if a key player left tomorrow?
- What type of rewards program will help us to retain our top talent in this competitive market?
- How can we make our performance review process more meaningful?

TALENT ACQUISITION

S3 offers a variety of custom and “off-the-shelf” products and services to power your talent acquisition strategy. Whether your organization needs to upgrade your current recruitment infrastructure or build a world-class recruiting strategy, S3 provides the expertise required. Our seasoned consultants have built and directed globally recognized recruiting functions.

If your organization struggles with the following questions, S3 has your solutions:

- Should your recruitment function be centralized, decentralized or a hybrid?
- How many requisitions should a recruiter typically manage?
- What’s the best way to structure your recruitment department roles?
- What are the roles of hiring managers, human resource generalists and recruiters; how are they different?
- What key metrics should your organization use to show value of the recruiting function?
- How do you measure and benchmark the cost, quality and efficiency of your recruitment process?
